**TO THE ACADEMIC ADVISOR:** Your advisee, listed above, has informed us that they are on academic probation and, therefore, does not currently meet the requirement for studying abroad, and they are appealing for an exception.

To be eligible to submit an academic probation policy appeal, students must meet the minimum cumulative GPA requirement for their program at the time of application.

I signify that I have carefully reviewed the student's record and credentials for the current and past semesters and, based on the information available in Orange Sccess, MySlice (SU students), and through my conversations with the student and – when relevant – other staff and faculty, I believe the student is on track to be academically and otherwise successful both this current semester and during their time abroad next semester.
